

Rufa Pazyuk

June 2018 Graduation
Double Major: Religious
Studies and Neurobiology,
Physiology, and Behavior

I double majored in Religious Studies and NPB while attending UCD. I am currently an advisor for the Department of Civil and Environmental Engineering at UCD. I worked as a peer advisor during undergrad and continued on the path as an advisor after graduating. Take courses you find enjoyable and courses you want to learn more about (even if they are not counting towards GEs/major- You're only an undergrad once)! RST courses were some of my favorite courses during undergrad. Find a practical major- something that holds a promising career afterwards but also make sure it aligns with your interests.
